KEYMACRO Keymacs Keymacs is the full featured, intuitive, and feature rich free database software for Mac. It lets you create, save, edit, and print web-based database online from your computer. In addition to this, you can also backup and restore your databases. You can use multiple database templates to create your own and use SQL to help you build your database.... It is the best one I've found. It won't ask for a password when you are online. It's pretty easy to use. It also has a very powerful search

function. I like it a lot. January 28, 2015 Alfred Maddox Amazing program, my only real complaint is that I have had to reinstall every few weeks or so. Does not have an option to convert. April 24, 2014 ahmad Its a great tool, i use it to track any computer item. February 10, 2014 Leighton Nohlgren It is good. The built in web browser works well and can be accessed with the main window open or even from full screen. If you need more space to enter data than what is provided you can create a template in it. It is not the biggest program but it does the job well enough. January 19, 2014 Michael Phelps I use this software for keeping track of the data for my company. It's handy to access from anywhere. It has a lot of tools to help you organize it. I like it and recommend it to anyone looking for an inventory program. December 24, 2013 Tova Zimmer It's a really nice inventory program that is easy to use, It's a breeze for keeping inventory, and it automatically generates a list for you of things you need to buy. It's a small program and I can always access it on my phone, so I don't have to leave my place. December 17, 2013 Cécile Ramesh I use it to keep track of products I sell. I love it. It is easy to use and I can always access my database online. I'm very satisfied. November 26, 2013 Martin Zacharias I love this program! I use it to keep track of my business inventory. I've used it for over 8 years and it's been very reliable for me. November 25, 2013 Am 81e310abff

List your business or home assets, keep track of them and maintain a log of their history. Bitminter offers several aspects of working in virtual currency with a focus on Bitcoin. It includes a blockchain explorer that lets you visualize transactions and blocks and a Bitcoin trading platform that allows you to transfer and exchange Bitcoin and other assets in real time. It also provides a Bitcoin faucet and you can utilize it to collect free Bitcoin. You can save Bitcoin addresses to the clipboard, send BTC to them or even exchange them with other cryptocurrencies. You can also generate secure wallets and Bitcoin paper wallets. Additionally, Bitminter also provides tools that you can use to purchase goods and services using Bitcoin. If you would like to try Bitminter, it's available for both Windows and Linux operating systems. It's available for free on both platforms. The Bitminter Blockchain explorer The Bitminter Blockchain explorer is where you can view the Bitcoin blockchain and all the transactions that took place inside it. As you scroll down the page, you will see all the transactions and blocks that are inside the blockchain. If you click on any block, you will be brought to a detailed view. You will see the history of the transaction that took place inside that block and all of the transaction that took place inside it. You can view the list of address and keys that were used for sending the transaction or Bitcoin. You can even add new addresses and keys to the list. You can view the blockchain in a tree-like view or in a tabular view. Additionally, you can view the amount of transaction fees that were paid. By default, the blockchain explorer is set to display only block headers. However, you can also set it to show the entire block. You can view transaction fee information, including the fee that was actually paid for that transaction. Bitminter's Bitcoin trading platform The Bitminter Bitcoin trading platform allows you to transfer and exchange Bitcoin and other assets in real time. You can see all of the active orders and see a list of your own orders. There is a list of your Bitcoin wallets and you can see the amount of Bitcoin that you have in each of them.
